

SmartFees

Borrower Portal Integration

- No integration is shown in the Borrower Portal

Lender Portal Integration

- After the borrower has selected pricing, the Loan Officer can run SmartFees in the *SmartFees* section of the Lender Portal
- Activating the SmartFees API integration generates a pop-up containing applicable loan information, allowing the Loan Officer to add or edit info
- After the Loan Officer has confirm all information, fees are saved to the loan file upon the Loan Officer exiting the integration

Additional Information

- Service is available to all Revvin clients
